Dear Colleagues,

We welcome you to the 16th meeting of European trainees in Obstetrics and Gynaecology in Copenhagen. These meetings and exchange programmes, arranged regularly since 1992, allow us to experience different methods of training and practices of obstetrics and gynaecology. As is the tradition, two trainees from each country were invited to participate in the exchange programme prior to the meeting. During the four day exchange the trainees are visiting training departments in obstetrics and gynaecology around Denmark in order to sense the atmosphere of local OB/GYN practice. At the end of the week exchange participants and other interested trainees and gynaecologists will convene at the Ferring International Pharma Science Center in Copenhagen for the ENTOG seminar on December 1 and the ENTOG council meeting on December 2. The meeting and exchange programme are organised by ENTOG and FYGO with support from EBCOG and UEMS.

You can find more information and on-line registration at [www.entog.fygo.dk](http://www.entog.fygo.dk) or [www.entog.org](http://www.entog.org)
